Kelpwise

Remote monitoring for chronic patients

Fictional sample deck

Problem

Hospitals in Southern Italy discharge heart patients with almost no follow-up.

Solution

A digital health platform: a wearable patch and a dashboard for clinics and doctors.

Traction

1,200 active users, 9 paying customers (clinics)

ARR €240k, growing 15% MoM

4 pilots with public hospitals, 2 LOIs

Market

SAM of €1.1B.

Previous round: we raised $300k pre-seed from angels in 2024.

Team

We are a team of 12: clinicians and engineers.

2 co-founders, both ex-Politecnico di Milano.

The ask

We are raising a €1.2M seed round to scale to 30 hospitals.
